Kritagya Singh Chouhan

Web Developer and Designer

Hi, myself Kritagya Singh Chouhan. I'm currently pursuing my bachelor's degree in Computer Science. I had created numerous web-based projects using popular languages like HTML, CSS, JS, NodeJS, Bootstrap, React, WordPress, MaterialUI, Express and many more. As count of my experience I had the privilege of working as a web developer intern at Cashe.

Experience

Web Developer Intern at [Cashe](#)

Projects

ASTROPIC

Developed an authentic application to display most spectacular and aesthetically pleasing images of space every day along with pertinent information. The application uses NASA APOD api to render the images, videos and data. Technologies like HTML, CSS, JavaScript are used to build the project.
